

**"Words create worlds"
Change the words;
change the world.**

PULSE conversations
change the words for
creating better worlds.

This is why our mission is
**People Using
Language Skills Effectively**

*We believe that if
everyone could learn to
listen to each other in a
curious kind of way and
to speak to each other
courageously by saying
what they need, then we
can change the world one
conversation at a time."*
Nancy Love, PhD, 2007
